

Ceiling-mounted Light

D19 Series

T6

PAK's range of Ceiling-mounted Lights are professionally designed under extensive Research and Development to provide the best possible optics for softer, more even light distribution and reduced glare.

Features

- Cover: high quality transparent PMMA
- Housing: flame-retardant, anti-UV ABS plastic
- Base: cold-rolled steel board, high intensity and anti-deformation
- Professional optical design under scientific analysis for softer lighting anti-glare and increased luminance
- Built-in energy efficient PAK low loss electronic ballast, high power factor and low temperature operation
- Equipped with PAK's tri-phosphor fluorescent lamps, high light efficiency and excellent CRI
- Clip-in installation design, rotary cover with dust-proof gasket prevents environmental contaminants
- Concaved designed base for good heat diffusion of the ballasts and lamps
- Specialised terminal block design for improved insulation
- Special design options: additional decorative colour choices, clear or gold

Application:

- Bedroom, living room, balcony, corridor, etc.
