

Ceiling-mounted Light

D21 Series

The D21 ceiling mounted fitting is specially designed to give softer more even light distribution.

Features

- Cover: high quality transparent Acrylic (PMMA)
- 20% better light transmittance than previous products
- Frame made of PC industrial plastic, flame-retardant and anti-UV
- Base made of cold-rolled steel board, for longer life and better safety
- Professionally designed optics. Analyzed light penetration cover arc and lamp distance, for more even surface luminance
- Built-in energy efficient PAK low loss electronic ballast, high power factor and low temperature operation
- Equipped with PAK's tri-phosphor fluorescent lamps, high light efficiency and excellent CRI
- Unique shape, with Transparent, Orange or Purple decorative rings around the cover.
- Lamp options: 22W (T5), 28W (T5), 83W(T6 Twin)

Application:

- Bedroom, living room, balcony, corridor, etc.
