

## Ceiling-mounted Light

### D22 Series

The D22 ceiling mounted fitting is specially designed to give softer more even light distribution.

#### Features

- Cover: high quality transparent Acrylic (PMMA)
- Housing: flame-retardant, anti-UV ABS plastic
- Base: cold-rolled steel board, high intensity and anti-deformation
- Professional optical design under scientific analysis for softer lighting anti-glare and increased luminance
- Built-in energy efficient PAK low loss electronic ballast, high power factor and low temperature operation
- Equipped with PAK's tri-phosphor fluorescent lamps, high light efficiency and excellent CRI
- Clip-in installation design, rotary cover with dust-proof gasket prevents environmental contaminants
- Concaved designed base for good heat diffusion of the ballasts and lamps
- Specialised terminal block design for improved insulation
- Lamp options: 22W (T5), 28W (T5), 83W(T6 Twin)

#### Application

- Indoor, Bedroom, living room, balcony, corridor, etc.

Model	Lamp	Power	Weight (Kg)	Dimension (mm)	House Colour	Cover Colour
